

## Human Foosball

*Objective:* To move together with a group along a line with a pipe in hand to pass and kick the ball along the field, attempting to score a goal into the goalie net/wall.

*Equipment:* 6 PVC pipes with rubber stoppers on the end, super big ball

*Formation:*

Evenly distribute the amount of students aligned on 6 lines with a PVC pipe in their hand. Each team will have 3 lines.

*Rules:*

1. One goalie is assigned to each side standing in front of their goal.
2. Each player must keep at least one of their hands on the PVC pipe at all times.
3. The line of players may only move along the colored line on the floor.
4. The players must keep the PVC tubing and their hands facing the goal they are shooting at. They are allowed to turn their head and torso to see the ball if it is behind them.
5. The goalie may move in the designated goalie box and may get the balls that are stuck in the corners where no one can reach.
6. The goalie may only roll the ball back into play.
7. The players may only use a kick to pass the ball from one line to another.

*Safety:*

- Quick jerks of the PVC may make a player off balanced.

*Variations:*

- a. Add another ball.
- b. Allow hand-batting to pass the ball.
